greener
*tomorrow.***

Sustainable...

Thinking...

...For a
better future.

Quik-Brik®

- Single-wythe masonry unit
- New V-Brik technology angles top web surfaces toward the center of the unit
- Safely controls water leakage to reduce mold growth
- Rich, brick look in 12 color choices
- Crisp edges and corners allow the mason to tool and compact the joint for a tight seal
- Water repellent admixture reduces absorption, permeability and wicking
- Quick and easy installation expedites project completion

Greenline™ and Verastone®

- Made from recycled content
- Available in custom shapes
- Durable concrete
- Virtually maintenance free
- Fire rated
- Mold/moisture resistant
- One-step installation
- Easy to clean surfaces
- Low life-cycle costs

MASONRY

Four new products- many greenbuilding solutions.

Printed on Chlorine Free
100% Recycled Paper
(30% Post Consumer Fiber).

Eco-Brick™

- Meeting EPA Stormwater requirements with a superior solution
- Achieving significant savings through enhanced land planning
- Outperforming other systems in harsh climates with freeze/thaw cycles
- Delivering maximum strength to handle heavy vehicular traffic
- Providing outstanding results on a 30-year life-cycle cost analysis
- Producing remarkable curb appeal and convenient maintenance access

Subterra™

- One basic shape/footprint
- 13 different false-joint patterns or impressions
- Six different natural stone textures
- Natural, chiseled stone look
- 9.5% opening ratio
- Installs in a herringbone pattern, yet shows a random cobblestone look
